**Greatest Achievement So Far:** Earning the rank of Eagle scout by the age of 13.

**Plans After High School:** Attend Missouri University of Science and technology and receive my Bachelor's degree in Engineering.

**How has participating in high school athletics benefited you?**

Playing Sports in high school has helped me in all facets of life. It has first benefited me in school by always forcing me to stay on top of my work. Next, it has helped my mental well-being by teaching me to be positive no matter what life throws my way. Also, having different coaches through various sports has made me be able to work with many personality types. Lastly, it has helped me physically by giving me an opportunity to be the best I can be.

**Quote from Athletic Director:** "Justin is easily one of the highest character athletes I've coached in 20 years. He's been a big part of our success the last 3 varsity seasons. – Chris Scacht Boys Soccer Head Coach

**Quote from Principal:** "Justin serves our high schools in many capacities. He is our senior class president, a member of our STEM academy and an excellent role model as a student athlete who participate in three sports."
